

World Gold Council Publications on Jewellery Technology

World Gold Council produces a range of technical manuals and handbooks for the practising jeweller, whether in a traditional goldsmith's workshop or a factory. These are available in English (with some Italian editions) and can be purchased from WGC, London. The latest addition to the range, **Handbook on Soldering** by Mark Grimwade has just been published (see *Gold Technology*, last issue, No 33 for description).

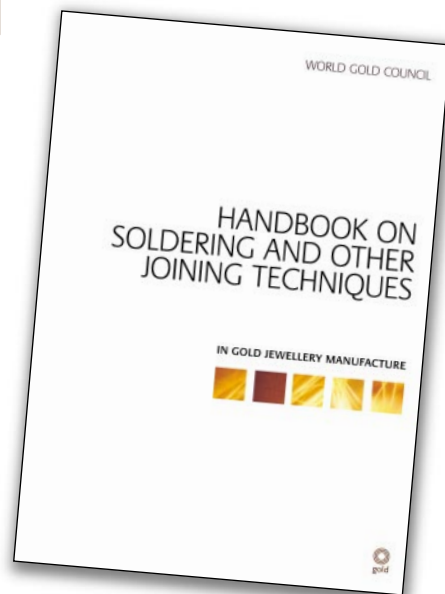

From the beginning of 2002, payment can now be accepted in US\$ and European € as well as £ sterling. We accept cheques and money orders (but not credit cards) or the money can be paid into the World Gold Council bank account directly:
